

# New Jersey Institute of Technology evolves into a truly global campus

Newark, NJ | 4-year | Public | 11,000 students

## The challenge

### A groundbreaking curriculum delivery mode.

At the start of the pandemic, New Jersey Institute of Technology (NJIT) needed to accelerate deployment of their innovative Converged Learning Model (CLM) to seamlessly and safely connect in-person and remote instruction.

## The solution

### Leveraging technology to scale CLM across campus.

## The result

### Safe in the classroom and engaged online.

Automating a range of processes to safely maximize the use of classroom space, NJIT created a hybrid learning environment in which remote and in-person students are both fully supported.

## Impact

**89%**  
fall-to-fall retention, an all-time high

**3%**  
increase in undergraduate enrollment

**75%**  
reduction in transfer processing time due to automation
