

## Trevecca Nazarene University's future-ready cloud strategy

Nashville, TN | 4-year | Private | 2,200 students

### The challenge

#### Left behind on the road to modernization.

With their on-premises system, Trevecca Nazarene University lagged behind current updates by over a year and spent a disproportionate amount of time maintaining systems that were vulnerable to outages, cyberattacks, and natural disasters.

### The solution

#### Realizing the future of higher education.

Ellucian Colleague SaaS  
Ellucian Cloud

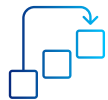

### The result

#### Constantly moving forward without missing a beat.

By moving to the cloud with Ellucian, Trevecca gained access to a steady cadence of updates, robust disaster recovery tools, the bandwidth to run multiple projects simultaneously, and a modern, reliable system for realizing innovation.

## Impact

**80%**

of staff time reallocated from maintenance to high-impact projects

**Millions**

of dollars saved by eliminating the need for data replication

**1/3**

reduction in data center needs

“From a business continuity and cybersecurity standpoint, it's a weight off my shoulders. We're safe with Ellucian.”

**John Eberle**  
Chief Information Officer  
Trevecca Nazarene University
